Civility, You, and Mizzou

The purpose of this module is to provoke thought, provide some information and tools, and generate some discussion about building a culture of civility in our individual units/departments as well as campus-wide. Please feel free to use the [facilitation guide](#) as a resource to help facilitate a discussion about civility in your department, work unit, classroom, and/or residence hall. You will be issued a printable certificate upon completion of the brief survey at the end.
